1:00-3:30pm

NON-STANDARD TIME BANDS

Courses scheduled at days/times other than those listed above **must** be scheduled in departmental space and approved by the Academic Scheduling Office (ASO). Please be cognizant of the potential impact of scheduling courses in non-standard time bands on students' ability to schedule other classes. In order to avoid scheduling conflicts, it is highly recommended that the use of non-standard time bands be limited to cohort programs in which all of the students in a course scheduled in a non-standard time band are taking a common set of courses.
